

Health PEI

New Physician Services Agreement Signed in PEI

Prince Edward Island doctors have signed a landmark five-year agreement with the provincial government and Health PEI, marking a **\$188.3 million** investment in physician services. This historic agreement emphasizes primary care and recognizes Family Medicine as a specialty – with PEI being the first province in the country to do so.

Family physicians on PEI are now among the top paid in the country and have a RIS incentive of up to **\$115,000** available with access to relocation assistance.

Practicing in PEI now means access to nationally leading benefits focused on work-life balance and professional development.

We are reducing red tape and the administrative burden for physicians with the removal of more than 450 unique billing codes, allowing more time with patients.

We have new incentive programs for family physicians who care for a patient load (panel) above their expected benchmark and offer same day appointments.
